- ❖ Optional Services
- ❖ Scalability & Adaptability
- ❖ Complete Administration Control and Security
- ❖ Better Service for Vendors and Customers

"Pro-Square" Vendor Management software allows organization to develop a comprehensive vendor management process and obtain a complete view of your vendor relationships and vendor risk. The solution enables efficient vendor due diligence, vendor risk assessments, planning, vendor contract review, ongoing monitoring, and oversight.

Vendor Management Portal (or a Supplier Portal) is a web-based, vendor management solution that allows you to collaborate with your vendors in a secure online environment. Vendor portals provide a web based platform that allows prospective vendors to easily provide on-boarding information and current vendors to submit invoices for payment, initiate payment and transaction disputes, perform 24 x 7 payment inquiries, or even participate in a dynamic discounting program.

A comprehensive vendor management software solution will allow you to protect and manage your vendors and maintain successful long-term vendor relationships.

- Centralized Vendor and Data Management
- Manage Vendor and Third Party Risk
- Dynamic Workflow and Self Service Portal
- Easy to Use Dashboard Interface
- Comprehensive Reporting

Our Team

We can tailor vendor management software to meet your specific needs. We help you reach your goals in a way that makes sense for your company and your bottom-line by offering scalable solutions that grow as your company grows. Our technology solutions are fully configurable and ERP-independent, which allows your Legacy System to remain intact. We also help provide a bridge between your suppliers, customers, employees, and the critical information they need to work efficiently.
